

## IZDANE GRAĐEVINSKE DOZVOLE U SIJEČNJU 2021. BUILDING PERMITS ISSUED, JANUARY 2021

U siječnju 2021. izdano je 766 građevinskih dozvola, što je više za 12,0% u odnosu na siječanj 2020.

In January 2021, there were 766 building permits issued, which was 12.0% more than in January 2020.

U siječnju 2021.:

- prema vrstama građevina, 83,2% dozvola izdano je za zgrade, a 16,8% za ostale građevine
- prema vrstama radova, 76,6% dozvola izdano je za novogradnju, a 23,4% za rekonstrukcije.

Prema izdanim građevinskim dozvolama u siječnju 2021., predviđeno je građenje 1 059 stanova s prosječnom površinom od 96,9 m<sup>2</sup>.

In January 2021:

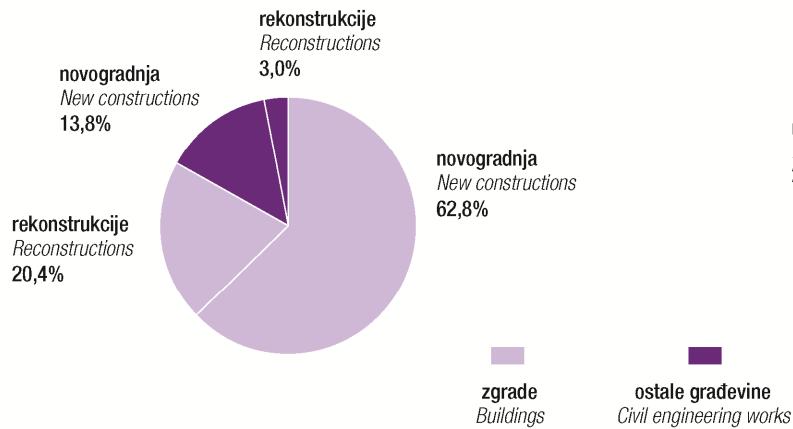

- by types of constructions, 83.2% of permits were issued on buildings and 16.8% on civil engineering works
- by types of construction works, 76.6% of permits were issued on new constructions and 23.4% on reconstructions.

According to permits issued in January 2021, there are 1 059 dwellings with an average floor area of 96.9 m<sup>2</sup> planned to be built.

## METODOLOŠKA OBJAŠNJENJA

### Izvori i metode prikupljanja podataka

Iskažani podaci prikupljeni su izvještajnom metodom s pomoću obrasca Mjesečni izvještaj o izdanim građevinskim dozvolama (obrazac GRAĐ-44a).

### Obuhvat i usporedivost

Mjesečni izvještaj o izdanim građevinskim dozvolama prikuplja se od upravnih tijela velikih gradova, Grada Zagreba i županija, nadležnih za upravne poslove graditeljstva i Ministarstva prostornog uređenja, graditeljstva i državne imovine, koja izdaju građevinske dozvole za građevine predviđene Zakonom o gradnji (NN, br. 153/13., 20/17., 39/19. i 125/19.).

Podaci o vrstama građevina i radova razvrstani su prema Nacionalnoj klasifikaciji vrsta građevina – NKVG-u (Metodološke upute br. 41, ISBN 953-6667-33-9, Državni zavod za statistiku, 2002.).

### Definicije

**Građevine** su objekti povezani s tлом, za koje se obavljaju građevinski radovi, načinjeni od građevnih materijala i gotovih proizvoda za ugradnju.

**Zgrade** su stalne građevine koje imaju krov i vanjske zidove, sagrađene su kao samostalne uporabne cjeline koje pružaju zaštitu od vremenskih i drugih vanjskih utjecaja, a namijenjene su stanovanju, obavljanju neke djelatnosti ili smještaju i čuvanju životinja, robe, opreme za različite proizvodne i uslužne djelatnosti itd.

U ovom istraživanju zgradama se smatraju i građevine koje imaju krov, ali nemaju (sve) zidove, npr. nadstrešnice te građevine koje su pretežno ili potpuno smještene ispod površine zemlje, npr. skloništa, podzemne garaže, prodavaonice i drugi poslovni prostori (npr. u pothodnicima) i sl.

## NOTES ON METHODOLOGY

### Sources and methods of data collection

The data are collected by using the reporting method on the Monthly Report on Issued Building Permits (GRAĐ-44a form).

### Coverage and comparability

The Monthly Report on Issued Building Permits is collected from the administration bodies competent for construction affairs in major cities, the City of Zagreb and counties as well as from the Ministry of Physical Planning, Construction and State Assets, which issue building permits for constructions as specified in the Building Act (NN, Nos 153/13, 20/17, 39/19 and 125/19).

Data on types of constructions and works are classified according to the National Classification of Types of Constructions – NKVG (Methodological Guidelines No. 41, ISBN 953-6667-33-9, the Croatian Bureau of Statistics, 2002).

### Definitions

**Constructions** are structures connected with the ground, for which construction works are carried out and which are made of construction materials and ready-made components.

**Buildings** are permanent constructions covered with a roof and closed with outer walls. They are built as separate useful units that protect from weather and other external conditions, intended for dwelling, for performing a certain activity or for storage and upkeep of animals, goods and equipment used in various industrial activities and services, etc.

In this survey, constructions covered with a roof but without (some of the) walls, e.g., porches and underground constructions, such as underground shelters, underground garages, underground shopping centres and other business spaces (e.g. in subways), etc. are also counted as buildings.

**Stambene zgrade** jesu građevine u kojima je 50% ili više ukupne korisne podne površine zgrade namijenjeno stambenim svrhama.

**Nestambene zgrade** jesu građevine koje nemaju stambene površine ili je manje od 50% ukupne korisne podne površine zgrade namijenjeno stambenim svrhama.

**Površina zgrade** jest zbroj površina svih etaža u zgradi koje su obuhvaćene vanjskim zidovima.

**Korisna površina stana** jest podna površina stana mjerena unutar zidova stana.

**Volumen zgrade** jest zbroj volumena svih natkrivenih dijelova zgrade uključujući vanjske zidove.

**Ostale građevine** jesu sve građevine koje nisu zgrade, npr. ceste, pruge, cjevovodi, mostovi, brane, sportski tereni itd.

**Novogradnja** je gradnja nove građevine na mjestu na kojem prije nije bilo nikakve građevine ili je postojala, ali je uklonjena.

**Rekonstrukcije** su građevinski radovi kojima se utječe na bitna svojstva postojećih građevina, npr. dogradnja i nadogradnja, prenamjena i drugi radovi kojima se bitno poboljšava uporabna vrijednost građevine (npr. kapacitet, kakvoća, funkcija) i/ili kojima se produljuje ili barem obnavlja njezino trajanje.

**Vrijednost radova** određuje se prema troškovniku koji prilaže investitor. Osnova je za izračunavanje pristojbe za izdavanje građevinske dozvole.

**Residential buildings** are constructions in which 50% or more of the useful floor area is intended for dwelling purposes.

**Non-residential buildings** are constructions without dwelling areas or in which less than 50% of the overall useful floor area is used for dwelling purposes.

**Floor area of a building** is the sum total of the areas of all floors of a building placed inside outer walls.

**Useful floor area of a dwelling** is the floor area of a dwelling, measured inside the walls of the dwelling.

**Volume of building** is the sum total of the volumes of all roofed spaces of a building, including outer walls.

**Civil engineering works** are all constructions not classified under buildings, for example roads, railways, pipelines, bridges, dams, constructions intended for sports and recreation, etc.

**New constructions** are newly built structures built on a location where no structure existed or on a location previously cleared by demolition.

**Reconstructions** are construction works that affect the main characteristics of already existing constructions, for example, additions and extensions, conversions and other works, which may significantly improve the occupancy value of a construction (for example capacity, quality, function) and/or prolong or at least restore its duration.

**Value of works** is defined according to the bill of costs submitted by an investor, which is used for defining the tax paid for the issuing of a building permit.
