## G-3 DOCTORS OF SCIENCE, BY WAY OF PAYING FOR POSTGRADUATE DOCTORAL STUDY, 2023

## NOTES ON METHODOLOGY

## Sources and methods of data collection

Data are the result of the annual data processing of statistical sheets for doctors of science (ŠV-70 form), which are filled in by doctors of science or doctors of art abtaing this degree.

## Coverage and comparability

The statistical survey covers all schools of higher education in the Republic of Croatia that establish and carry out the postgraduate university study for obtaining a doctoral degree or allow for obtaining a doctoral degree according to the Act on Higher Education and Scientific Activity (NN, No. 119/22).

Data are comparable to those from previous years

## Definitions and explanations

Doctor of science is a person who defended a doctoral dissertation.
Institution of higher education is any institution authorised to organise and implement courses of study as well as scientific research, highly professional or artistic work. Institutions of higher education are divided in the following way: universities, faculties, art academies and polytechnics. Institutions of higher education may be public and private.

University doctoral study can be enrolled after the completion of a graduate university study or a university integrated undergraduate and graduate study or a university specialist study.

Postgraduate university doctoral study lasts for three years. After fulfilling all conditions and on public defending of a doctoral dissertation, a person obtains an academic degree of the doctor of science (Dr. Sc.) or the doctor of art (Dr. Art) with a reference to the field of study, in line with the Rule Book of Scientific and Artistic Disciplines, Fields and Branches (NN, Nos 118/09, 82/12, 32/13, 34/16 and 56/22).
