TRAFFIC IN AIRPORTS, APRIL 2022

The total traffic of passengers in Croatian airports amounted to 580 thousand in April 2022, which was 654.0% more than in April 2021, when the total traffic of passengers amounted to only 77 thousand, due to the spread of the COVID-19 pandemic.

The largest traffic of passengers was recorded in the Zagreb Airport, with 254 thousand passengers (an increase of 375.8% compared to April 2021, when the traffic of passengers amounted to 53 thousand), followed by the Split Airport, with 132 thousand passengers (an increase of 842.1% compared to April 2021, when the traffic of passengers amounted to 14 thousand), and the Dubrovnik Airport, with 117 thousand passengers (a considerable increase compared to April 2021, when the traffic of passengers amounted to 8 thousand).

The most significant international traffic of passengers was realised with German airports, 141 thousand passengers, which was an increase of 650.3% compared to the same period of 2021.

The total number of landings and take-offs in airports in April 2022 amounted to 7 932 movements, which was 126.7% more than in April 2021, when the total number of landings and take-offs in airports amounted to 3 499 movements.

The total traffic of freight in airports in April 2022 amounted to 728 tonnes, which was an increase of 14.5% compared to April 2021, when the total traffic of freight in airports amounted to 636 tonnes.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, APRIL 2019 – APRIL 2022

1 TRAFFIC IN AIRPORTS

Ireland	20 727	1)
Turkey	18 186	352,2
Spain	13 783	1)

1) The index exceeds 999.

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
