NOTES ON METHODOLOGY

Data source

Data on average monthly paid off earnings by sex are based on the regular Annual Survey on Persons in Employment and Earnings (RAD-1G form). They were surveyed for the first time in 2004.

The survey comprises persons in employment in legal entities of all types of ownership, government bodies and units of local and regional self-government bodies on the territory of the Republic of Croatia.

Coverage and comparability

Data on earnings are collected through a report filled in by legal entities on the basis of records on earnings, which comprise gross and net earnings of persons in employment who signed a work contract irrespective of the type of work contract and working time, providing that they worked all 12 months of the previous year.

This survey excludes payments of persons employed in crafts and trades and free lances as well as persons who conduct their activities at private family farms.

Definitions

Average monthly paid off net earnings comprise income of a person in employment earned for work done during regular working hours as well as annual leave, paid leave, holidays and days-off as prescribed by law, sickness leave up to 42 days, absence for continuing professional education, during lay-off and job stop caused against person's will and of no fault of his own and net pays on the basis of compensations, allowances and rewards in sums which are subjects to contributions, taxes and surtaxes.

Average gross earnings include all kinds of net pays on the basis of employment and the following mandatory allocations: pension insurance contributions, income tax and surtax on income tax.
