# TRAFFIC IN AIRPORTS, JUNE 2025

The total traffic of passengers in Croatian airports amounted to **1 889 thousand** in June 2025, which was **7.3%** more than in June 2024, when the total traffic of passengers amounted to 1 760 thousand.

The largest traffic of passengers was recorded in the Split Airport, with 578 thousand passengers, which was an increase of 8.2% compared to June 2024, when the traffic of passengers amounted to 534 thousand. The Dubrovnik Airport followed, with 447 thousand passengers, which was an increase of 3.8% compared to June 2024, and the Zagreb Airport, with 435 thousand passengers, which was an increase of 7.6%.

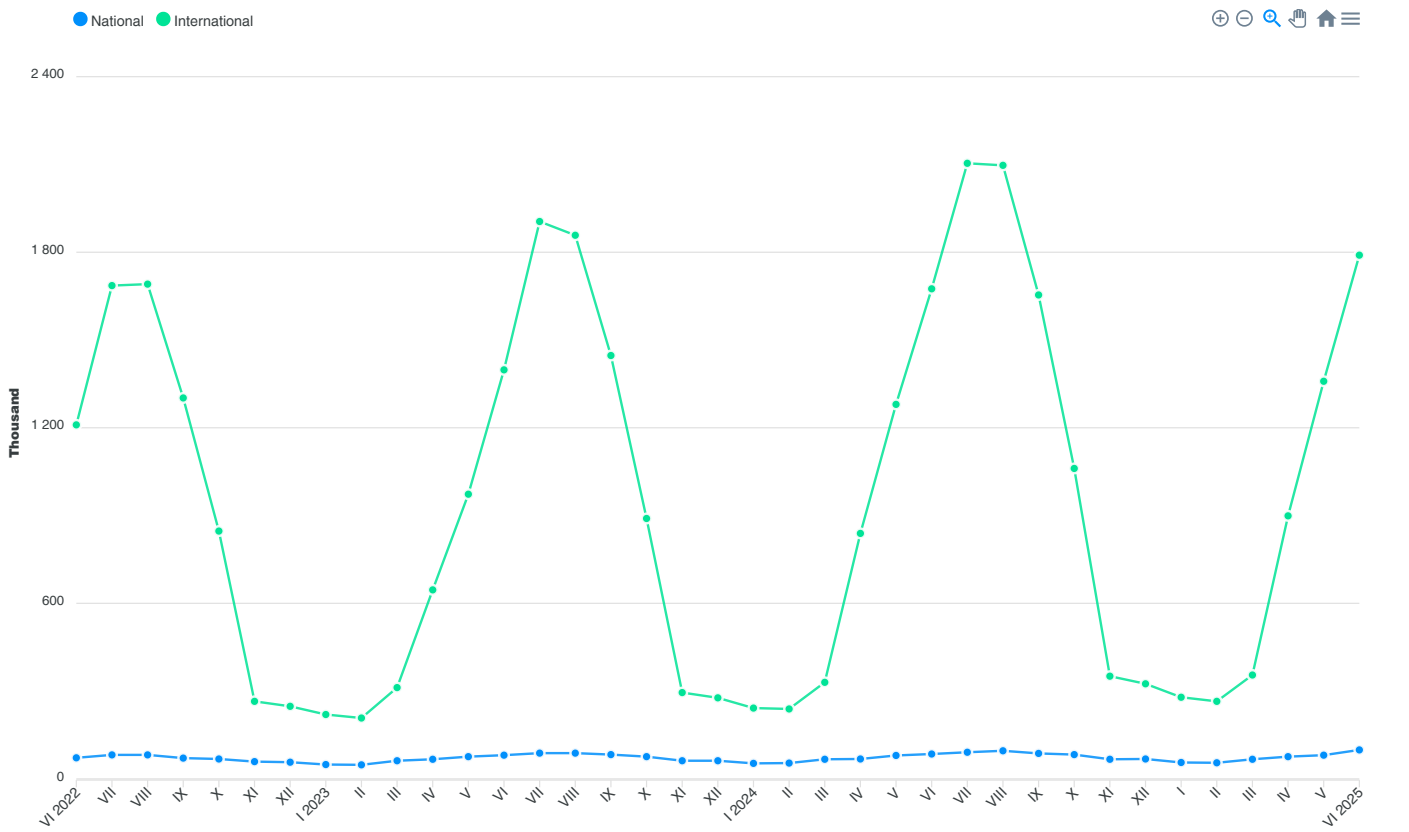

The most significant international traffic of passengers was realised with German airports, 351 thousand passengers, which was an increase of 4.4% compared to June 2024. The airports of the United Kingdom followed, with 317 thousand passengers, which was 0.3% more than in the same period of the previous year, and the airports of Poland, with 133 thousand passengers, which was a decrease of 33.7% compared to the same period of the previous year.

The total number of landings and take-offs in airports in June 2025 amounted to 18 788 movements, which was 5.9% more than in June 2024, when the total number of landings and take-offs amounted to 17 735 movements.

The total traffic of freight in airports in June 2025 amounted to 893 tonnes, which was a decrease of 7.6% compared to June 2024, when the total traffic of freight in airports amounted to 966 tonnes.

In the period from January to June 2025, there were 59.9 thousand landings and take-offs in Croatian airports, which was an increase of 4.6% compared to the same period of 2024. In the same period, a total of 5 381 thousand passengers embarked and disembarked in Croatian airports, which was an increase of 7.3%. The total traffic of freight in airports decreased by 8.2% in the period from January to June 2025 compared to the same period of 2024, and it amounted to 4.8 thousand tonnes.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, JUNE 2022 – JUNE 2025

1 TRAFFIC IN AIRPORTS

	Unit of measure	2024		2025		Indices

Sweden	73 501	104,7
Spain	68 232	108,0
Ireland	51 461	103,6

# NOTES ON METHODOLOGY

## Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

## Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

**The number of total aircraft movements in airports** refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

**Traffic of passengers in airports** includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

**Traffic of freight in airports** refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.

## Abbreviations

t	tonne
'000	thousand
