**METODOLOŠKA OBJAŠNENJA**

**Izvori i metode prikupljanja podataka**

Kumulativni podatak nije uvijek jednak zbroju pojedinačnih mjesečnih rezultata zbog zaokruživanja na tisuće.

Svrha istraživanja jest prikupiti podatke o broju svih operacija zrakoplova, prometu putnika i tereta na komercijalnim operacijama u zračnim lukama te u pristaništima Republike Hrvatske.

Jedinice promatranja i izvještajne jedinice jesu zračne luke u Republici Hrvatskoj. Podaci su prikupljeni u obliku elektroničkih setova i na obrascu PZ/M-21.

**Obuhvat**

Podaci o zračnom prometu (ukupne operacije zrakoplova, promet putnika i tereta u zračnim lukama) odnose se na rad zračnih luka Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač te zračnog pristaništa Mali Lošinj.

**NOTES ON METHODOLOGY**

**Sources and methods of data collection**

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

**Coverage**

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

**Broj ukupnih operacija zrakoplova u zračnim lukama** odnosi se na broj svih (komercijalnih i nekomercijalnih) operacija slijetanja i polijetanja zrakoplova, osim državnih letova (vojska, carina, policija).

**Promet putnika u zračnim lukama** obuhvaća broj otputovalih i doputovalih putnika na komercijalnim operacijama. Isključeni su putnici u direktnom tranzitu. Putnici u direktnom tranzitu jesu putnici koji, nakon kratkog zaustavljanja, nastavljaju svoje putovanje istim zrakoplovom na letu s istim brojem leta kao let s kojega su stigli.

**Promet tereta u zračnim lukama** odnosi se na utovarenu i istovarenu robu i poštu na komercijalnim operacijama, osim prtljage putnika. Isključen je teret u direktnom tranzitu.

**The number of total aircraft movements in airports** refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

**Traffic of passengers in airports** includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

**Traffic of freight in airports** refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
