TRAFFIC IN AIRPORTS, DECEMBER 2025

The total traffic of passengers in Croatian airports amounted to **419 thousand** in December 2025, which was **6.6%** more than in December 2024, when the total traffic of passengers amounted to 393 thousand.

The largest traffic of passengers was recorded in the Zagreb Airport, with 333 thousand passengers, which was an increase of 5.1% compared to December 2024, when the traffic of passengers amounted to 317 thousand. The Split Airport followed, with 50 thousand passengers, which was an increase of 14.0% compared to December 2024, and the Dubrovnik Airport, with 31 thousand passengers, which was an increase of 13.2%.

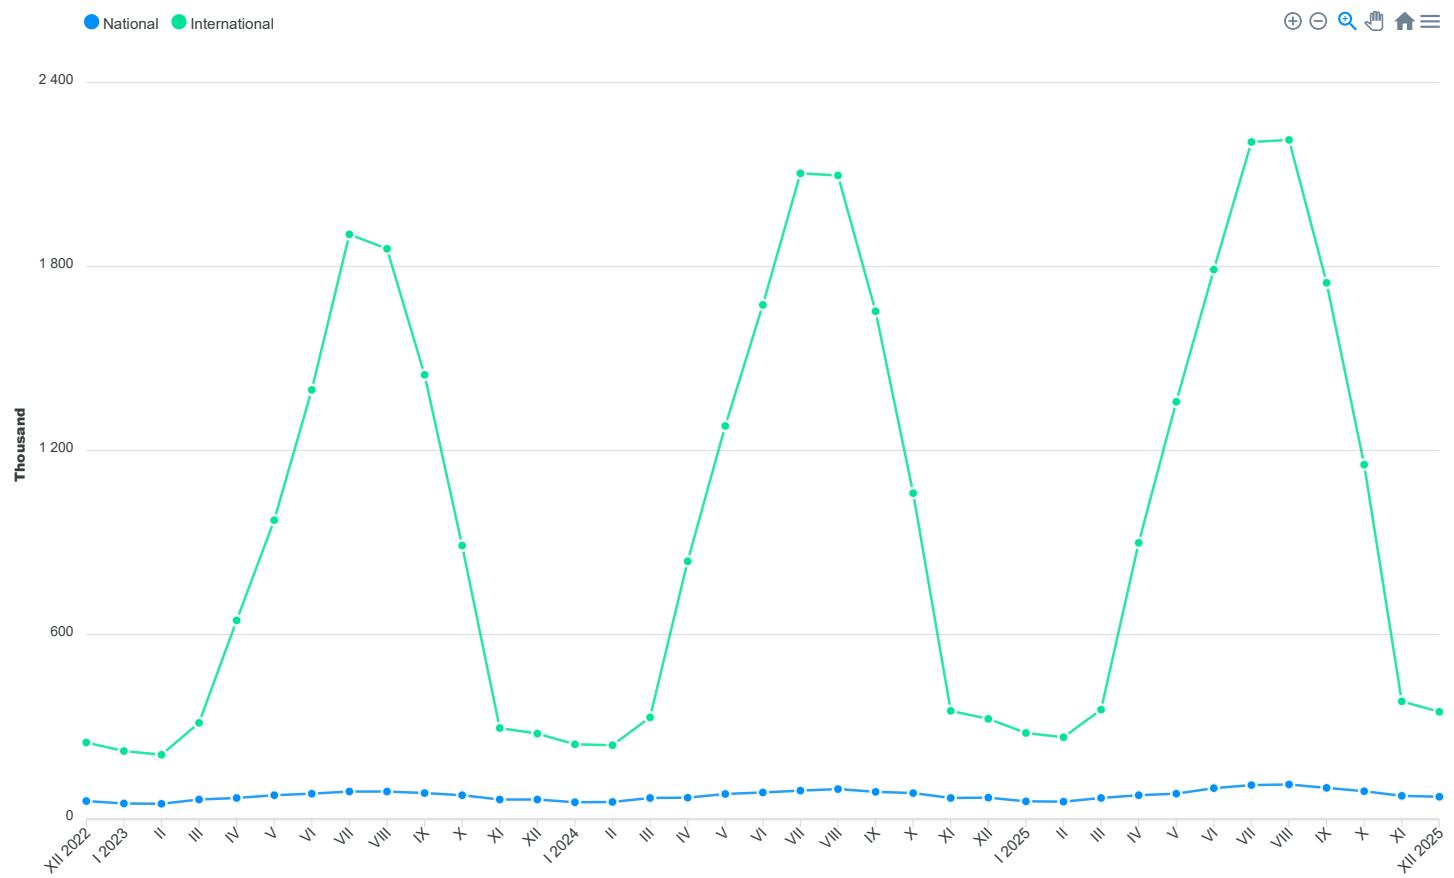

The most significant international traffic of passengers was realised with German airports, 100 thousand passengers, which was an increase of 4.2% compared to December 2024. The airports of France followed, with 24 thousand passengers, which was 6.8% less than in the same period of the previous year, and the airports of Türkiye, with 22 thousand passengers, which was an increase of 13.0% compared to the same period of the previous year.

The total number of landings and take-offs in airports in December 2025 amounted to 5 396 movements, which was an increase of 1.3% compared to December 2024, when the total number of landings and take-offs amounted to 5 327 movements.

The total traffic of freight in airports in December 2025 amounted to 765 tonnes, which was a decrease of 8.7% compared to December 2024, when the total traffic of freight in airports amounted to 838 tonnes.

In the period from January to December 2025, there were 144.7 thousand landings and take-offs in Croatian airports, which was an increase of 4.4% compared to the same period of 2024. In the same period, a total of 13 985 thousand passengers embarked and disembarked in Croatian airports, which was an increase of 6.8%. The total traffic of freight in airports decreased by 12.0% in the period from January to December 2025 compared to the same period of 2024, and it amounted to 9.7 thousand tonnes.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, DECEMBER 2022 – DECEMBER 2025

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
