G-2 THE MOST VISITED SEAPORTS IN THE REPUBLIC OF CROATIA, JANUARY – JULY 2026

NOTES ON METHODOLOGY

The purpose of the statistical survey

The statistical survey is aimed at monitoring the entries of foreign cruise vessels in the territorial sea of the Republic of Croatia, the number of passengers aboard and the days on which a ship stays in the territorial sea of the Republic of Croatia. The results of this survey provide indicators used in the analysis of tourism in the Republic of Croatia.

Legal basis

The survey is carried out on the basis of the Official Statistics Act (NN, Nos 25/20, 155/23, 124/25 – corr. and 69/26).

Sources and methods of data collection

The data source for the statistical survey on cruises of foreign vessels in the Republic of Croatia is the Croatian Integrated Maritime Information System (CIMIS). The Croatian Bureau of Statistics takes over a part of the database from the Ministry of the Sea, Transport and Infrastructure, after which it performs further processing.

Among other data, ships submit information on the ship, journey and passengers to this system through authorised maritime agents and shippers. The accuracy and completeness of the data in the official proceedings of registration are verified by harbour master’s offices.

Coverage and comparability

Observation unit for this survey is a foreign vessel on a tourist cruise journey that enters the territorial sea of the Republic of Croatia.

In Tables 1, 2 and 3, the data on foreign cruise vessels include only **seaports of the first entry** of the foreign cruise vessel into the territorial sea of the Republic of Croatia.

In Graph G-2, the data on the visits of foreign cruise vessels include **all seaports** visited by these vessels during their stay in the territorial sea of the Republic of Croatia. Visits to seaports are presented by statistical seaports consisting of one or more ports, normally controlled by harbour master's branch offices able to record ship and cargo movements.

Definitions

Cruise vessel means a passenger ship intended to provide passengers with the pleasure of journey and facilities for entertainment aboard (luxurious atmosphere, adventures, education, culture, entertainment, sports activities, wellness or recreation) rather than transport of persons from one seaport to another. It is equipped for a multi-day stay of passengers aboard and must provide food, drinks and accommodation services. On its journey, a cruise vessel stops at seaports that are interesting tourist destinations.

Journey is an entry of a foreign cruise vessel into the first seaport of the territorial sea of the Republic of Croatia.

Visit is an entry of a foreign cruise vessel into every seaport of the territorial sea of the Republic of Croatia.

Passengers on board are persons who arrived by ship irrespective of their age, provided that they are not crew members.

Sojourns represent a total number of days a ship spends in the territorial sea of the Republic of Croatia.

Flag of vessel represents the country in which a ship was registered, that is, entered in the ship's registry and complies with its legislation.

Statistical seaport consists of one or more ports, normally controlled by harbour master's branch offices able to record ship and cargo movements.
