INDUSTRIAL PRODUCER PRICE INDEX, FEBRUARY 2025

Producer prices of industrial products (total)

Producer prices of industrial products for total industry increased by **0.3%** in February 2025 compared to January 2025 and by **0.5%** compared to February 2024.

Comparison of producer prices of industrial products for total industry, excluding Energy, shows that they increased by **0.2%** in February 2025 compared to January 2025 and by **2.0%** compared to February 2024.

Producer prices of industrial products on the domestic market (total)

Producer prices of industrial products on the domestic market for total industry increased by **0.3%** in February 2025 compared to January 2025 and by **0.4%** compared to February 2024.

Comparison of producer prices of industrial products on the domestic market for total industry, excluding Energy, shows that they increased by **0.3%** in February 2025 compared to January 2024 and by **3.0%** compared to February 2024.

G-1 INDUSTRIAL PRODUCER PRICE INDEX ON DOMESTIC MARKET, FEBRUARY 2021 – FEBRUARY 2025

Producer prices of industrial products on the non-domestic market (total)

Producer prices of industrial products on the non-domestic market for total industry increased by **0.1%** in February 2025 compared to January 2025 and by **0.7%** compared to February 2024.

Comparison of producer prices of industrial products on the non-domestic market for total industry, excluding Energy, shows that they increased by **0.1%** in February 2025 compared to January 2025 and by **1.2%** compared to February 2024.

Producer prices of industrial products on the non-domestic market for total industry for the euro area and the non-euro area

Producer prices of industrial products on the non-domestic market for total industry for the euro area increased by 0.2% in February 2025 compared to January 2025 and by 1.0% compared to February 2024.

Producer prices of industrial products on the non-domestic market for total industry for the non-euro area decreased by 0.1% in February 2025 compared to January 2025, whereas they increased by 0.1% compared to February 2024.

MIGs 2009 aggregates

Producer prices of industrial products (total)

In February 2025 compared to January 2025, producer prices of industrial products increased in Energy by 0.3%, in Capital goods by 0.3%, in Intermediate goods by 0.3% and in Non-durable consumer goods by 0.1%, while in Durable consumer goods they remained stable.

In February 2025 compared to February 2024, producer prices of industrial products increased in Non-durable consumer goods by 2.6%, in Intermediate goods by 1.7%, in Capital goods by 1.7% and in Durable consumer goods by 1.0%, while they decreased in Energy by 2.3%.

Producer prices of industrial products on the domestic market

In February 2025 compared to January 2025, producer prices of industrial products increased in Capital goods by 0.6%, in Intermediate goods by 0.4%, in Energy by 0.3% and in Non-durable consumer goods by 0.3%, while in Durable consumer goods they remained stable.

In February 2025 compared to February 2024, producer prices of industrial products increased in Non-durable consumer goods by 3.6%, in Capital goods by 2.8%, in Intermediate goods by 2.5% and in Durable consumer goods by 1.0%, while they decreased in Energy by 2.0%.

MIGS 2009 aggregates

AI Intermediate goods
 AE Energy
 BB Capital goods
 CD Durable consumer goods
 CN Non-durable consumer goods

NKD 2007 sections

B Mining and quarrying
 C Manufacturing
 D Electricity, gas, steam and air conditioning supply
 E Water supply; sewerage, waste management and remediation activities

Producer prices of industrial products on the non-domestic market

In February 2025 compared to January 2025, producer prices of industrial products increased in Energy by 0.5%, in Intermediate goods by 0.3%, in Capital goods by 0.1%, they decreased in Non-durable consumer goods by 0.1%, while in Durable consumer goods they remained stable.

In February 2025 compared to February 2024, producer prices of industrial products increased in Intermediate goods by 1.3%, in Non-durable consumer goods by 1.2%, in Capital goods by 1.1% and in Durable consumer goods by 1.0%, while they decreased in Energy by 5.2%.

NKD 2007 industrial sections

Producer prices of industrial products (total)

In February 2025 compared to January 2025, producer prices of industrial products increased in Mining and quarrying by 18.1% and in Manufacturing by 0.3%, they decreased in Electricity, gas, steam and air conditioning supply by 1.0%, while in Water supply; sewerage, waste management and remediation activities (only division 36) they remained stable.

In February 2025 compared to February 2024, producer prices of industrial products increased in Mining and quarrying by 63.0% and in Manufacturing by 0.7%, while they decreased in Electricity, gas, steam and air conditioning supply by 4.6% and in Water supply; sewerage, waste management and remediation activities (only division 36) by 1.8%.

Producer prices of industrial products on the domestic market

In February 2025 compared to January 2025, producer prices of industrial products increased in Mining and quarrying by 18.8% and in Manufacturing by 0.4%, they decreased in Electricity, gas, steam and air conditioning supply by 1.0%, while in Water supply; sewerage, waste management and remediation activities (only division 36) they remained stable.

In February 2025 compared to February 2024, producer prices of industrial products increased in Mining and quarrying by 65.5% and in Manufacturing by 0.8%, while they decreased in Electricity, gas, steam and air conditioning supply by 4.6% and in Water supply; sewerage, waste management and remediation activities (only division 36) by 1.8%.

G-3 INDUSTRIAL PRODUCER PRICE INDEX ON DOMESTIC AND NON-DOMESTIC MARKET, PRICE CHANGES COMPARED WITH SAME MONTH OF PREVIOUS YEAR, FEBRUARY 2025

NOTES ON METHODOLOGY

Introduction

Industrial producer price indices on the domestic, non-domestic and total market are presented nationally on an interannual chain and on a month-on-month basis as well as on the fixed base year 2021 = 100 due to the harmonisation with the Regulation (EU) 2019/2152 of the European Parliament and of the Council of 27 November 2019 on European business statistics, repealing 10 legal acts in the field of business statistics.

Concepts, definitions and terminology are completely harmonised with those used and regulated by the EU. Therefore, the term "industrial producers' price index" has been changed to "industrial producer price index".

According to the EU terminology, the term "industrial producer price index" is also known as the "industrial output index" and the term "industrial producer prices" should be considered its synonym. If not specified, the term "industrial producer price index" denotes the "total industrial producer price index" (on the domestic and the non-domestic market).

The concept of industrial producer prices and their purpose

Total industrial producer price index is composed of two sub-indices, that is, the industrial producer price index on the domestic market and the industrial producer price index on the non-domestic market. The combination of sub-indices for these two markets provides the changes in given products/services, while their aggregation provides the divisions of products and activities.

Industrial producer price index measures the changes of producer prices of manufactured goods produced in the Republic of Croatia and sold by producers on the domestic (Croatian) and/or the non-domestic (non-Croatian) market.

Industrial producer price index on the domestic market measures the changes of producer prices of manufactured goods that are produced and sold by producers on the domestic (Croatian) market.

Industrial producer price index on the non-domestic market, further subdivided into the euro area and the non-euro area, measures the changes of producer prices of manufactured goods that are sold by producers on foreign (non-Croatian) market.

The Decision on the National Classification of Activities, 2007 version – NKD 2007, will be applied in the Survey until 31 December 2027 in line with the transitional provision from Article 6 of the Decision on the National Classification of Activities, 2025 version – NKD 2025 (NN, No. 47/24): "For statistical and analytical purposes of official statistics of the Republic of Croatia, in the transitional period until 31 December 2027, the Decision on the National Classification of Activities, 2007 version – NKD 2007 (NN, Nos 58/07 and 72/07 – correction) shall be concurrently applied" and the Regulation (EU) 2019/2152 of the European Parliament and of the Council of 27 November 2019 on European business statistics, repealing 10 legal acts in the field of business statistics.

The industrial producer price index is an important short-term indicator of the business cycle that shows monthly price changes in the total industrial sector (the NKD 2007 sections B, C, D and E – only division 36) on the domestic and the non-domestic market and further subdivided into the euro area and the non-euro area. According to the EU concept, it is an important business indicator that permits monthly monitoring of prices at different stages of the manufacturing process. It is also used for distinguishing effective growth of an activity due to price changes and provides information to the business community on particular markets of their interest. It can also indicate inflationary changes before they reach consumers.

Presentation of the industrial producer price index

All indices are presented in gross (unadjusted) form. They were calculated on the basis of data collected through the revised Monthly Survey on Industrial Producer Prices (IND-3/KPS/M form) for 2025.

Legal and methodological framework

The Monthly Survey on Industrial Producer Prices (IND-3/KPS/M form) in 2025 is carried out directly by the Croatian Bureau of Statistics on the basis of the Official Statistics Act (NN, Nos 25/20 and 155/23). The internet application (CAWI method) is used in data collection. The reporting units directly access this application and enter their data on the basis of the instructions given.

The concepts and definitions used in the IND-3/KPS/M Survey are harmonised with the EU concepts and definitions, in particular with the basic Regulation (EU) 2019/2152 of the European Parliament and of the Council and Commission Implementing Regulation (EU) 2020/1197.

Scope and coverage

The reporting units included in the IND-3/KPS/M Survey are selected enterprises (legal entities and tradesmen) that produce selected products as defined in the Nomenclature of Industrial Products – NIP 2023, classified in the NKD 2007 (NN, Nos 58/07 and 72/07) activity sections B Mining and quarrying, C Manufacturing, D Electricity, gas, steam and air conditioning supply, and E Water supply; sewerage, waste management and remediation activities (only division 36).

In order to collect data on industrial producer prices on the domestic and the non-domestic market, the IND-3/KPS/M Survey for 2025 covers a representative sample of industrial products at the level of covered activity classes of the NKD 2007, that is, all products that generated sales **exceeding 3 million euro on the domestic market and exceeding 2 million euro on the non-domestic market** according to the results of the PRODCOM Survey on Industrial Production (IND-21/PRODCOM/G form) for 2023. The selection of enterprises has been done according to their share in the production of selected products, separately for the domestic and the non-domestic market.

For monitoring the **industrial producer prices on the domestic market**, the sample for the IND-3/KPS/M Survey for 2025 covers 1 484 item prices within the selected NIP 2023 products in 924 enterprises (legal entities and tradesmen), while for monitoring **industrial producer prices on the non-domestic market**, it covers 983 item prices within the selected NIP 2023 products in 619 enterprises (legal entities and tradesmen). In February 2025, the response rate was 98.3%, while the estimation rate of non-responded questionnaires was 1.7%.

Reference point

All industrial producer prices are recorded as transaction prices in effect on the 15th day of the month indicated. The prices at which a producer sells products on the domestic and/or the non-domestic market in the largest quantities to a known buyer are recorded.

Completed IND-3/KPS/M forms are delivered directly on the website of the Croatian Bureau of Statistics in the period from 16th to 26th of the current reporting month (<https://podaci.dzs.hr/en/>).

Definitions

Producer price indices on the domestic and the non-domestic market require a separate compilation according to the destination of a product in order to obtain the producer price indices on the domestic and the non-domestic market.

The residency of the third party that has ordered or purchased the product determines the destination. The domestic market is defined when both the third party/buyer and the reporting unit are residents of the Republic of Croatia, while the non-domestic market is defined when the third party/buyer is not a resident of the Republic of Croatia.

Industrial producer prices on the domestic market are either the prices at which a producer sells products on the domestic market in the largest quantities, loaded free on a rail (truck) at a factory gate at the location of the producer or the price charged to another company by the producer. The selling price is increased for the amount of the compensation obtained by the seller and deducted for the amount of the discount and rebate as well as the value added tax and excises.

Industrial producer prices on the non-domestic market are the prices at which a producer sells products on the non-domestic market in the largest quantities at the national border, FOB (free on board). The selling price is increased for the amount of the compensation obtained by the seller and deducted for the amount of the discount and rebate as well as the value added tax and excises.

Reporting of data for the non-domestic market according to the euro area criterion

The territory of the European Union (EU-27) comprises the national territories of 27 EU Member States, and the data for producer prices of items sold on the non-domestic market are reported for the European Union market according to the criterion of the national markets of the Member States using the euro as currency (from the euro area) and those Member States not using the euro as currency (from the non-euro area). For the reporting of data in 2025, the following country composition of the euro area applies:

From the euro area (EA-19) – refers to the territories of 19 EU Member States that have adopted a common currency (euro), i.e. Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Portugal, Slovakia, Slovenia and Spain.

From the non-euro area (EU-7) – refers to the territory of the other seven EU Member States that have not yet adopted a common currency (euro), i.e. to Bulgaria, the Czech Republic, Denmark, Hungary, Poland, Romania and Sweden, and to other non-EU countries.

Calculation method

Total industrial producer price index is composed of two sub-indices, that is, the industrial producer price index on the domestic market and the industrial producer price index on the non-domestic market.

Industrial producer price indices on the domestic market and the non-domestic market are calculated according to the Laspeyres formula for different levels of the NKD 2007.

Individual indices for each representative product are calculated from data on prices by dividing prices of the current period by prices of the base period (December of the previous year).

Aggregate indices, that is, indices of groups, divisions and sections of the NKD 2007 as well as the total industry index are calculated by a weighted arithmetic mean from individual indices according to the modified Laspeyres formula:

$$I = \frac{\sum \frac{P_n}{P_o} \times W_o}{\sum W_o} \times 100$$

Whereby:

I is an index of a group, division, section, subsection and the total index

P_n is a price in the current period (month)

P_o is a price in the base period

W_o is the relative sale structure in the base period.

Weights

The weighting system for the 2025 reference year is based on the value of products sold from the PRODCOM Survey on Industrial Production (IND-21/PRODCOM/G form) for 2023. The weighting system is changed at the beginning of every reference year in relation to changes in prices.

Data publishing

The total industrial producer price indices, both on the domestic and the non-domestic market, are published for the total industry according to the NKD 2007 sections and divisions and according to MIGs 2009 aggregates (end use of products) grouped by the NKD 2007 activity groups and divisions. The total industrial producer price indices on the non-domestic market, subdivided into the euro area and the non-euro area, are published for the total industry according to the NKD 2007 and according to the MIGs 2009 aggregates, at constant base 2021 = 100, in the STS database <https://sts baza.dzs.hr/en>.

The grouping of the NKD 2007 activity groups or divisions according to the MIGs 2009¹⁾, using alphabetic marks of abbreviations, was done as follows:

AI	Intermediate goods: the NKD 2007 divisions and groups: 07 (excl. 07.21) – 09, 10.6, 10.9, 13.1 – 13.3, 16, 17, 20.1 – 20.3, 20.5, 20.6, 22 – 24 (excl. 24.46), 25.5 – 25.7, 25.9, 26.1, 26.8, 27.1 – 27.4 and 27.9
AE	Energy: the NKD 2007 divisions: 05, 06, 19, 35 and 36
BB	Capital goods: the NKD 2007 divisions and groups: 25.1 – 25.3, 26.2, 26.3, 26.5, 26.6, 28, 29, 30.2, 32.5 and 33
CD	Durable consumer goods: the NKD 2007 divisions and groups: 26.4, 26.7, 27.5, 30.9, 31, 32.1 and 32.2
CN	Non-durable consumer goods: the NKD 2007 divisions and groups: 10.1 – 10.5, 10.7, 10.8, 11, 12, 13.9, 14, 15, 18, 20.4, 21, 32.3, 32.4 and 32.9.

1) The Commission Implementing Regulation (EU) 2020/1197 of 30 July 2020 laying down technical specifications and arrangements pursuant to Regulation (EU) 2019/2152 of the European Parliament and of the Council, as regards the definitions of Main Industrial Groupings (MIGs).

The survey whose data are published in this First Release has been conducted with the financial assistance of the European Union. The contents of this document are the sole responsibility of the Croatian Bureau of Statistics and can under no circumstances be regarded as reflecting the position of the European Union.
