TRAFFIC IN AIRPORTS, JUNE 2024

The total traffic of passengers in Croatian airports amounted to 1 760 thousand in June 2024, which was 19.0% more than in June 2023, when the total traffic of passengers amounted to 1 479 thousand.

The largest traffic of passengers was recorded in the Split Airport, with 534 thousand passengers, which was an increase of 10.4% compared to June 2023, when the traffic of passengers amounted to 484 thousand. The Dubrovnik Airport followed, with 431 thousand passengers, which was an increase of 25.6% compared to June 2023, and the Zagreb Airport, with 405 thousand passengers, which was an increase of 17.3% compared to June 2023. The aforementioned airports also recorded an increase in the traffic of passengers in the first half-year of 2024 compared to the same period of the previous year.

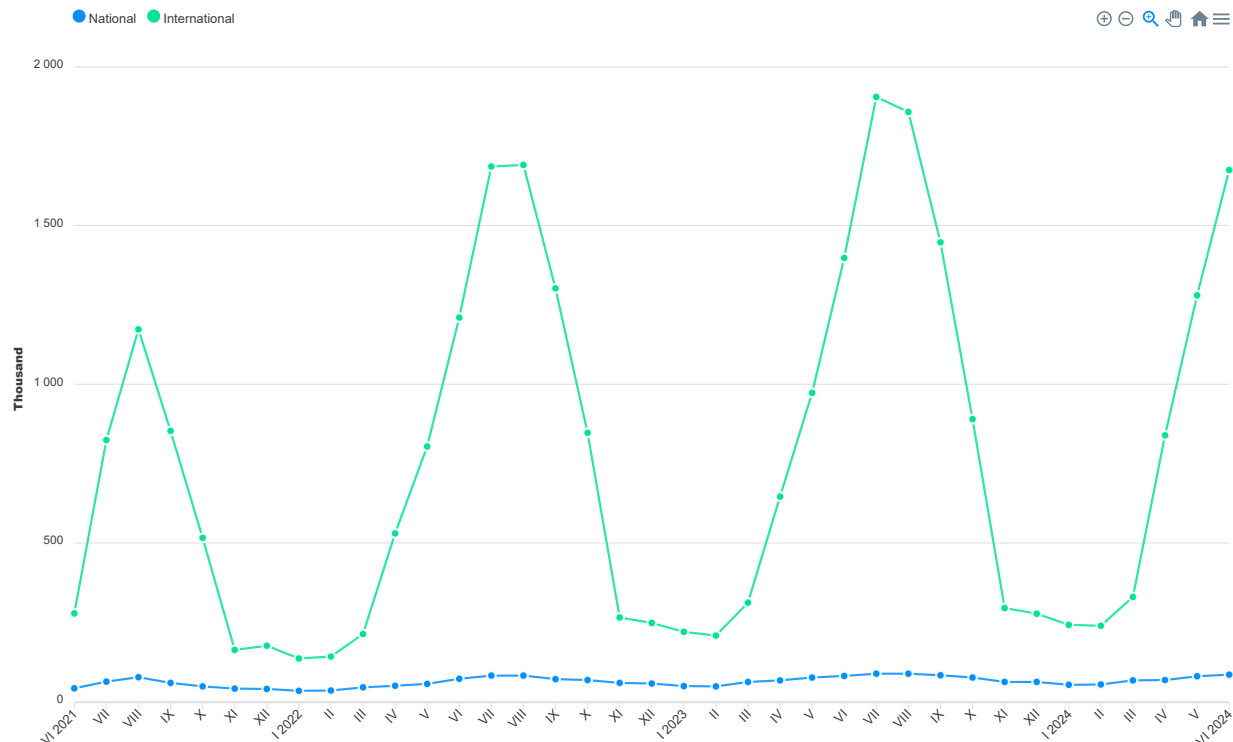

The most significant international traffic of passengers was realised with German airports, 336 thousand passengers, which was an increase of 14.3% compared to June 2023. The airports of the United Kingdom followed, with 316 thousand passengers, which was 15.0% more than in the same period of the previous year, and the airports of France, with 129 thousand passengers, which was an increase of 27.2% compared to the same period of the previous year.

The total number of landings and take-offs in airports in June 2024 amounted to 17 735 movements, which was 17.0% more than in June 2023, when the total number of landings and take-offs in airports amounted to 15 164 movements.

The total traffic of freight in airports in June 2024 amounted to 966 tonnes, which was an increase of 8.9% compared to June 2023, when the total traffic of freight in airports amounted to 887 tonnes.

In the first half-year of 2024, there were 57 328 landings and take-offs in Croatian airports, which was an increase of 14.7% compared to the same period of 2023. In the same period, a total of 5 013 thousand passengers embarked and disembarked in Croatian airports, which was an increase of 21.1%. The total traffic of freight in airports increased by 16.1% in the first half-year of 2024 compared to the same period of 2023, and it amounted to 5 266 tonnes.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, JUNE 2021 - JUNE 2024

1 TRAFFIC IN AIRPORTS

	Unit of measure	2023		2024		Indices

Sweden	70 214	121,5
Austria	70 153	108,9
Spain	61 789	169,4
Ireland	49 677	118,2

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
