TRAFFIC IN AIRPORTS, AUGUST 2023

The total traffic of passengers in Croatian airports amounted to 1 946 thousand in August 2023, which was 9.8% more than in August 2022, when the total traffic of passengers amounted to 1 773 thousand.

The largest traffic of passengers was recorded in the Split Airport, with 676 thousand passengers, which was an increase of 8.5% compared to August 2022, when the traffic of passengers amounted to 623 thousand. The Dubrovnik Airport followed, with 443 thousand passengers, which was an increase of 3.5% compared to August 2022, when the traffic of passengers amounted to 428 thousand, and the Zagreb Airport, with 382 thousand passengers, which was an increase of 10.2% compared to August 2022, when the traffic of passengers amounted to 346 thousand. The Zadar Airport recorded 293 thousand passengers carried, which was an increase of 23.6% compared to August 2022, when passenger traffic amounted to 237 thousand. The Osijek Airport achieved the largest increase in passenger traffic of 192.1% compared to August 2022.

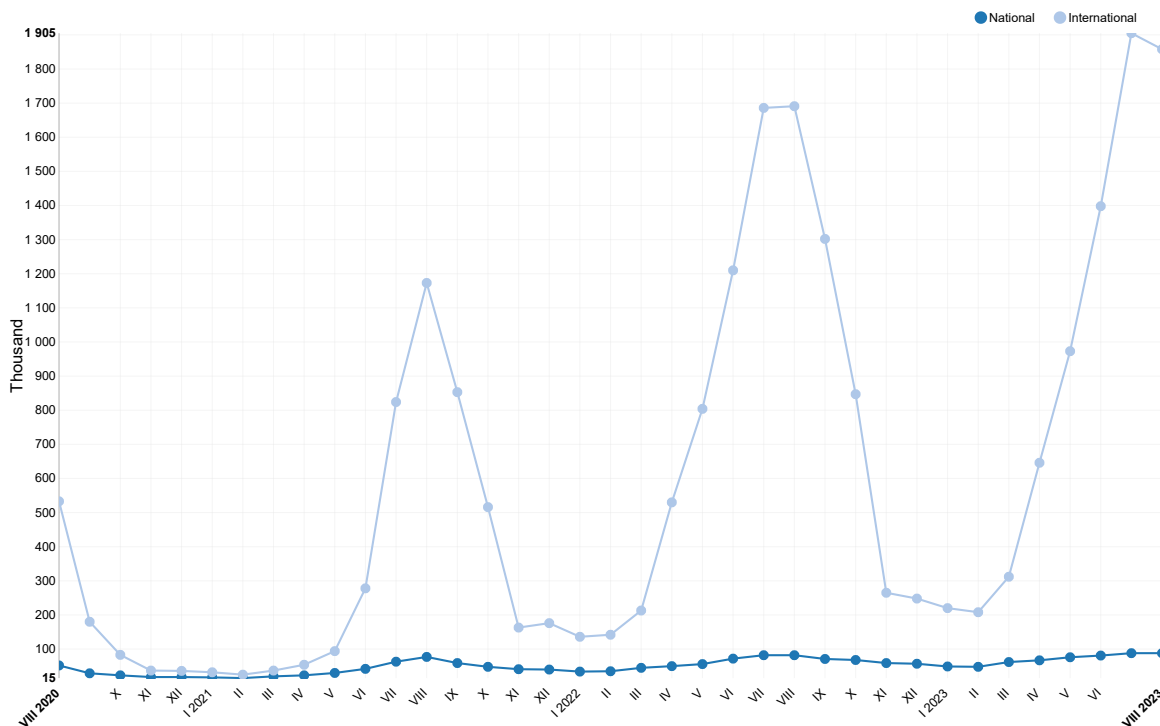

The most significant international traffic of passengers was realised with German airports, with 359 thousand passengers carried, which was 12.3% more than in August 2022. The airports of the United Kingdom followed, with 333 thousand passengers carried, which was 5.7% more than in the same period of the previous year, and the airports of France, with 176 thousand passengers carried, which was 6.8% less than in the same period of the previous year.

The total number of landings and take-offs in airports in August 2023 amounted to 18 506 movements, which was 0.4% more than in August 2022, when the total number of landings and take-offs in airports amounted to 18 437 movements.

The total traffic of freight in airports in August 2023 amounted to 664 tonnes, which was a decrease of 15.7% compared to August 2022, when the total traffic of freight in airports amounted to 788 tonnes.

In the period from January to August 2023, compared to the same period of 2022, the total number of landings and take-offs in airports increased by 5.3%, the total traffic of passengers by 17.6%, whereas the total traffic of freight decreased by 6.3%.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, AUGUST 2020 - AUGUST 2023

Spain	74 998	103,3
Sweden	60 608	119,4
Ireland	43 857	106,2

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.

Abbreviations

t tonne
'000 thousand
