# FOREIGN TRADE IN GOODS OF THE REPUBLIC OF CROATIA – Provisional data January – December 2023 and January 2024

According to provisional data, from January to December 2023, total export of the Republic of Croatia amounted to 22.9 billion euro. At the same time, total import was 39.5 billion euro. Foreign trade deficit amounted to 16.6 billion euro.

In the period from January to December 2023, coverage of import by export was 58.0%.

According to the First Results, in January 2024, total export of the Republic of Croatia amounted to 1.7 billion euro, while total import was 2.9 billion euro. Foreign trade deficit amounted to 1.2 billion euro.

According to the First Results, coverage of import by export was 59.1% in January 2024.

Remark: From 1 January 2023, a new currency, the euro, was introduced in the Republic of Croatia. Values for periods before 1 January 2023 have been converted into euro at a fixed exchange rate (1 euro = 7.53450 kuna) and the data for 2022 differ from those published in the First Release VT-2023-1-2.

### NOTES ON METHODOLOGY

#### Sources and methods of data collection

The data source for statistics on trading in goods with EU Member States is the Intrastat form used by the reporting units to report on arrivals and/or dispatches on a monthly basis, that is, for each month in which goods physically enter or leave the territory of the Republic of Croatia. The reporting units are all business entities, value added tax payers whose value of trading in goods with EU Member States exceeds the exemption threshold determined for the reference year. For 2023, an exemption threshold of 400 thousand euro for arrivals and of 200 thousand euro for dispatches has been determined. In order to achieve complete harmonisation with the EU methodology and legislation, data on foreign trade in goods have been supplemented with trade value below the exemption threshold after being estimated on the basis of data on supplies and acquisitions of goods in/from EU Member States provided by the Tax Administration Office of the Republic of Croatia.

The First Results of the statistics concerning the foreign trade in goods of the Republic of Croatia are an integral part of this First Release and they contain the estimate of the trade value below the exemption threshold for the entire period they refer to.

The data source for statistics on trading in goods with third countries, that is, non-EU countries, are customs declarations on export and import of goods. The Croatian Bureau of Statistics receives the reviewed customs declarations from the Customs Administration of the Republic of Croatia in the form of data records.

Following basic methodological recommendations of the UN Statistical Office and Eurostat, the Croatian Bureau of Statistics statistically processes and disseminates collected Intrastat and Extrastat data as unique information on foreign trade in goods of the Republic of Croatia.

#### Legal basis

The legal basis for the conduct of the Intrastat survey is the European legislation related to statistics on trading in goods between EU Member States, the Regulation (EU) 2019/2152 as well as the Commission Implementing Regulation (EU) 2020/1197, the Official Statistics Act (NN, No. 25/20), the Annual Implementation Plan of Statistical Activities of the Republic of Croatia 2023 (NN, No. 35/23) and the Customs Administration Act (NN, Nos 68/13, 30/14, 115/16, 39/19 and 98/19). More detailed notes on methodology for this survey are published on the website of the Croatian Bureau of Statistics at [Državni zavod za statistiku - Intrastat \(gov.hr\)](http://Drzavni.zavod.za.statistiku.hr).

The legal basis for Extrastat is the European legislation related to statistics on trading in goods with third countries, the Regulation (EU) 2019/2152 as well as the Commission Implementing Regulations (EU) 2020/1197 and 2021/1225 and the Commission Delegated Regulation (EU) 2021/1704, the Act on the Implementation of the Customs Legislation of the European Union (NN, No. 40/16), the Official Statistics Act (NN, No. 25/20), the Annual Implementation Plan of Statistical Activities of the Republic of Croatia 2023 (NN, No. 35/23), the Customs Administration Act (NN, Nos 68/13, 30/14, 115/16, 39/19 and 98/19) and the Ordinance on Filling in the Single Administrative Document (NN, Nos 65/19 and 136/20).

#### Coverage and comparability

Statistics on foreign trade in goods include all goods exported from or imported into the country. Data on foreign trade in goods include both export and import based on gross inward and outward processing.

Statistical value of goods is the value of goods at the Croatian border. Values for export, i.e. dispatches, are shown as an FOB-type value, while values for import, i.e. arrivals, are shown as a CIF-type value.

Amounts expressed in foreign currencies are converted into euros and US dollars according to the monthly exchange rate lists determined for the reporting month. The mean exchange rate of the Croatian National Bank is used.

In certain tables, the sum total may not equal the sum of individual figures due to the rounding to thousands.

Data by type of activities have been presented according to the NKD 2007 (NN, Nos 58/07 and 72/07), which entered into force on 1 January 2008 and is based on the European classification NACE, Rev. 2, which is obligatory in EU Member States. Data are presented using a production approach by which export and import data are reported according to the manufacturing activity from which the product originates.

Goods listed under export and import are classified, for statistical needs, according to the Standard International Trade Classification (SITC, Rev. 4).

Data on export are shown by countries of destination, while two methodological criteria have been applied, by which data on import are shown by countries. In Extrastat, data on import are shown by countries of origin of goods, while, in Intrastat, data on arrivals of goods are presented by countries of dispatch.

OPEC membership is subject to frequent changes. More detailed information about OPEC member countries is published on the website <https://www.opec.org/>.

Only customs declarations containing the date of acceptance in a customs office in a particular month are processed for that month as well as Intrastat forms submitted for the reporting month. Already issued data for previous months are changed during the current year in order to classify subsequently received and/or corrected Intrastat forms and customs declarations for earlier periods.

Monthly data are corrected until final data processing for the current year is done (the middle of the next year). Monthly data are considered provisional until the final processing of the current year and dissemination of final data is done. Monthly data for 2022 in this First Release are considered final.

Data on foreign trade in goods are available in the time series published on the website of the Croatian Bureau of Statistics under [Statistics in Line; Economy – Basic Indicators](#) (data from 2000) and [Foreign Trade in Goods](#) (data from 2010).

## Abbreviations

CEFTA	Central European Free Trade Agreement
CIF	cost, insurance and freight
EC	European Community
EFTA	European Free Trade Association
EU	European Union
Eurostat	Statistical Office of the European Union
FOB	free on board
mIn	million
