TRAFFIC IN AIRPORTS, MAY 2022

The total traffic of passengers in Croatian airports amounted to 860 thousand in May 2022, which was 591.7% more than in May 2021, when the total traffic of passengers amounted to only 124 thousand, due to the spread of the COVID-19 pandemic.

The largest traffic of passengers was recorded in the Zagreb Airport, with 263 thousand passengers (an increase of 286.9% compared to May 2021, when the traffic of passengers amounted to 68 thousand), followed by the Split Airport, with 250 thousand passengers (an increase of 661.8% compared to May 2021, when the traffic of passengers amounted to 33 thousand), and the Dubrovnik Airport, with 214 thousand passengers (a considerable increase compared to May 2021, when the traffic of passengers amounted to only 17 thousand).

The most significant international traffic of passengers was realised with German airports, 198 thousand passengers, which was an increase of 562.9% compared to the same period of 2021.

The total number of landings and take-offs in airports in May 2022 amounted to 11 004 movements, which was 138.3% more than in May 2021, when the total number of landings and take-offs in airports amounted to 4 618 movements.

The total traffic of freight in airports in May 2022 amounted to 809 tonnes, which was an increase of 11.3% compared to May 2021, when the total traffic of freight in airports amounted to 727 tonnes.

G-1 PASSENGERS IN AIRPORTS, BY TYPES OF TRANSPORT, MAY 2019 - MAY 2022

Poland	24 549	463,2
Belgium	22 946	1)
Sweden	22 070	-

1) The index exceeds 999.

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
